To Whom It May Concern:

Leidos completed its conformance review of the Cisco Systems, Inc.'s Cisco 3355 Mobility Services Engine (MSE) (the "Product") on 05/28/2014.

Leidos conducted the compliance review testing with the following platform, Cisco 3355 MSE, and has found that the Product faithfully integrates the following FIPS 140-2 approved cryptographic module:

1. CiscoSSL FIPS Object Module (FOM) – Cert. #2100

Specifically, Leidos's review confirmed that:

1. Each of the integrated cryptographic modules (mentioned above) are initialized in a manner that is compliant with their individual security policies.
2. All cryptographic algorithms used for TLS 1.0 and TLS 1.2 used for session establishment, are offloaded to CiscoSSL FIPS Object Module (FOM) – Cert. #2100.
3. All cryptographic algorithms used for SNMPv3 secure connection are offloaded to CiscoSSL FIPS Object Module (FOM) – Cert. #2100.

Details of Leidos's review, which consisted of source code review and operational testing, are obtainable by special request.

Please note that for this review, Leidos only examined the Product features referenced above and while the Product may contain other features or functionality, Leidos did not examine these during its review and makes no claims or representations regarding them. Furthermore, the Cryptographic Module Validation Program (CMVP) has not independently reviewed Leidos's analysis, testing, or results.

The intention of this letter is to provide independent opinion that the Product correctly integrates and uses validated cryptographic modules within the scope of claims indicated above. Leidos offers no warranties or guarantees with respect to the above described compliance review. This letter does not imply a Leidos certification or product endorsement.

Please let us know if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "WTung", written over a horizontal line.
