

Kickstart  
Your Future

**Hello,** with more and more people and things connected to the internet, we'll need more digital skills, new innovations and technology to help keep it all ticking along. And that's where you come in. You don't have to be technical to be a part of the team. One thing is for sure, you'll be part of an amazing team.

No matter what you're planning for your future, there's a route into Cisco for everyone. Keep reading to discover which programme could be best for you.

## Pathways Work Experience

Curious about a career in technology? Looking for work experience that's fun, exciting and where you can get stuck in? Look no further than our award-winning Pathways work experience programmes.

You don't have to be tech-savvy to take part, we're open to everyone. We've got technical and non-technical sessions for you to choose from showing the variety of roles in the technology industry. Hear from people who do these jobs every day, and learn what it's like to work for Cisco and inspire your choices for a career in IT.

The programmes are available in two formats: hybrid and virtual. The hybrid format means that you would spend some time both in the office and online. The offices you could join us in are Bedfont Lakes, Feltham and Didsbury, Manchester. And for those that don't live near one of these offices, you can attend fully virtually using Webex, our video conferencing platform.

*stated that Cisco work experience made them aware of different career opportunities in the IT industry and helped them feel better prepared for the world of work*

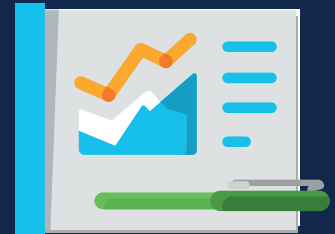

## Year 11 & 12

Open to students in Years 11 & 12, our work experience programme runs at our offices in Bedfont Lakes (Feltham), Didsbury (Manchester) and virtually.

Join us for sessions on marketing, sales, engineering, sustainability, IT, cyber security, customer experience and more – there is plenty to choose from! Or attend them all and hear about the wide range of roles in a global IT company.

There will be presentations, mock interviews, practical workshops and tours. And on top of that you'll work in groups to design and pitch your very own tech-inspired business idea to our panel of judges! Time to get your innovation caps on...

*“My work experience at Cisco has provided me with a fascinating insight of the IT industry and how much it can influence our daily lives. As a consequence, I have decided to study computer science at A level. It was a truly unforgettable opportunity.”*

## Year 12 & 13 (Young women and those who identify as female or non-binary)

Believe it or not, everyone who works in IT isn't an engineer. Join us for four days of discovery as we unveil the technology industry and the diverse range of careers available.

Hosted at Cisco offices in Bedfont Lakes (Feltham), Didsbury (Manchester) and virtually, you'll join others to get a taste of real work life to give your CV that extra boost. Drive your own learning and contribute to real work scenarios. You could be learning from Sales, IT, Marketing, Engineering or any other business area and get to develop your presentation and communication skills, problem solving and team working.

*"The programme has influenced my career aspirations and shown me that I enjoy sales so much that I plan to apply for the Graduate programme!"*

# Apprenticeships

We know university isn't for everyone, and securing a graduate role can be pretty tricky without decent work experience. Luckily for you, our Degree Apprenticeship is a great way to kick-start your career.

Over a four year programme you'll explore a huge variety of roles within Cisco. Giving you the knowledge and on-the-job experience to specialise in working directly with technology or supporting the people that make it happen. You'll define your career path, complete a major project and deliver real results to the business. You will study for a BSc in Digital and Technology Solutions or a BSc in Professional Management; you'll earn the same qualifications as a university graduate.

To top it all off you'll have a strong base of support, thanks to a brilliant group of current apprentices, mentors, managers and more, all ready to guide and advise you.

# Internships

Are you currently studying towards a degree or formal certification whilst looking for an opportunity to get a head start on a brilliant career? Then you've flipped to the right page! We're looking for ambitious people to apply for our internship programmes, taking on varied roles from sales to technical and beyond.

Our selection of internships are specifically designed for those actively in education and range from nine week summer placements to 12 month year-in-industry opportunities. No longer just for university students, if you're on a bootcamp or technical course, there's an internship that's right for you.

## **Sales Specialist & Technical Sales Engineer**

The two-month Sales internship programmes are specifically designed for penultimate-year students and offer the opportunity to learn and gain sales and consulting experience within Cisco. This could lead onto our award-winning Cisco Sales Associate Programme, Associate Sales Specialist or Associate Systems Engineer.

## **Software Engineering**

A classic summer internship! As a software engineer intern, you will work on exciting live projects, using a wide range of technologies. Commencing in June or July for 10-12 weeks.

## **IT (various roles available)**

We offer one year IT Internships for all of the IT roles outlined in the early in career section.

## **Marketing**

Spend your Summer on our Global Marketing Programme! Over 3 months you'll work on live campaigns that drive impact for our customers, culminating in a readout, live on Cisco TV to senior marketing execs!

## Early in Career Roles

What lies ahead? Whether you're self-taught with some limited industry experience, approaching the end of your university experience or even already completed an apprenticeship, early career opportunities could be the ideal path towards an inspiring and transformative career journey.

With a multitude of positions spanning across various sectors within the business, from engineering and sales to IT and marketing, Cisco offers a platform for individuals driven by their passion for technology, problem-solving and collaborative work to nurture their talents and explore their genuine career path.

We're building the best team in the business to change the way the world works, lives, plays and learns by connecting the unconnected.

### Roles include:

- Cisco Sales Associates Program: Associate Sales Representative and Associate Systems Engineer
- IT: Network Engineer, Business/Data Analyst and Software Engineer
- Engineering: Software Engineer, Test Engineer, Cloud Engineer
