### Registro y resolución de problemas de UCS Central

### Contenido

Introducción Componentes Utilizados Procedimiento Resolución de problemas comunes de registro: Escenario 1: La contraseña de administrador para el dominio UCS es incorrecta al registrar el dominio desde UCS Central. Escenario 2: El tiempo de UCS Central y el dominio UCS no se sincronizan. Escenario 3: Se ingresa un secreto compartido incorrecto mientras se registra desde el dominio UCS. Escenario 4: UCS Central no se puede comunicar con UCS Manager durante el registro

### Introducción

Este documento describe los pasos para registrar dominios Cisco Unified Computing System -UCS con UCS Central. Antes de la versión 1.5 de UCS Central, el registro solo podía realizarse desde UCS Manager. A partir de la versión 1.5, el registro se puede realizar tanto desde UCS Central como desde UCS Manager.

### **Componentes Utilizados**

UCS Central 2.0(1a)

UCS Manager 3.1(3a)

Todos los dispositivos utilizados son dispositivos de laboratorio

### Procedimiento

Proceso de registro desde dominio UCS:

Inicie UCS Manager y haga clic en Admin-> Communication Management-> UCS Central.

Seleccione Register with UCS Central .

Ingrese el **nombre de host/dirección IP** y el **secreto compartido** de UCS Central (siempre es una práctica recomendada para registrar UCS central usando el nombre de host, ya que la dirección IP se puede cambiar usando la entrada DNS, mientras el dominio está registrado) y haga clic en **Aceptar** para iniciar el registro.

**Control de resolución de políticas** se puede establecer mientras se registra. También se puede cambiar después del registro.

#### Proceso de registro desde UCS Central:

Inicie UCS Central y haga clic en System tools y vaya a Domain Management.

Haga clic en Register Domain en la esquina derecha.

uluilu cisco	UCS Central	What are you looking for?	Q What do you want to do?	•	admin 💶 🛧 🐼 🔅 🖗

Ingrese el **nombre de host/dirección IP** de dominio UCS y **el nombre de usuario** de administrador y la **contraseña**. Seleccione el **nombre de host/dirección IP** de UCS Central y haga clic en **Registro**. (Siempre se recomienda registrar UCS central utilizando el nombre de host como dirección IP para poder cambiarlo mediante la entrada DNS mientras se registra el dominio).

#### Resolución de problemas comunes de registro:

**Escenario 1:** La contraseña de administrador para el dominio UCS es incorrecta al registrar el dominio desde UCS Central.

Corregir: Corrija la contraseña del administrador e intente el registro de nuevo.

## Escenario 2: El tiempo de UCS Central y el dominio UCS no se sincronizan.

Corregir: Sincronice el tiempo en UCS Central y UCS Domain e intente el registro de nuevo.

Refiérase a Forced Time Sync en UCS Manager en el siguiente enlace para corregir la hora.
