简介 <u>先决条件</u> <u>要求</u> 使用的组件 背景信息 配置 <u>CTR控制台 — 配置Threat Grid模块</u> <u>Threat Grid控制台 — 授权Threat Grid访问威胁响应</u> 验证

简介

本文档介绍将思科威胁响应(CTR)与Threat Grid(TG)云集成以执行CTR调查的步骤。

作者: Jesus Javier Martinez,编辑者: Cisco TAC工程师Yeraldin Sanchez。

先决条件

要求

Cisco 建议您了解以下主题:

- 思科威胁响应
- Threat Grid

使用的组件

本文档中的信息基于以下软件版本:

• CTR控制台(具有管理员权限的用户帐户)

• Threat Grid控制台(具有管理员权限的用户帐户)

本文档中的信息都是基于特定实验室环境中的设备编写的。本文档中使用的所有设备最初均采用原 始(默认)配置。如果您的网络处于活动状态,请确保您了解所有命令的潜在影响。

背景信息

Cisco Threat Grid是一种高级且自动化的恶意软件分析和恶意软件威胁情报平台,可在不影响用户 环境的情况下引爆可疑文件或网络目标。

在与Cisco Threat Response的集成中,Threat Grid是一个参考模块,能够透视到Threat Grid门户 ,以收集有关Threat Grid知识库中文件哈希、IP、域和URL的其他情报。

CTR控制台 — 配置Threat Grid模块

步骤1.使用管理员凭证登录到Cisco Threat Response。

步骤2.导航至Modules选项卡,选择Modules > Add New Module,如图所示。

Settings > Modules										
Settings	Modules									
Your Account										
Devices	Intelligence within Cisco Threat Response is provided by modules, which can also enable response capabilities. Click here to view all the available modules.									
API Clients										
 Modules 	Your Configurations									
Available Modules										
Users	H Add New Module									

步骤3.在Available Modules页面上,选择Threat Grid模块窗格中的Add New Module,如图所示。

Tg Threat Grid	
Threat Grid combines solution to protect orga	advanced sandboxing with threat intelligence into one unified anizations from malware.
Add New Module	Learn More - Free Trial

步骤4."添加新模块"窗体。填写如图所示的表单。

- •模块名称 保留默认名称或输入对您有意义的名称。
- URL 从下拉列表中,为您的Threat Grid帐户所在位置(北美或欧洲)选择适当的URL。 暂 时忽**略其**他选项。

Add New	Threat Grid Module
Module Name*	
Threat Grid]
URL*	
https://panac	ea.threatgrid.com
Save	Cancel

步骤5.选择"保存"以完成Threat Grid模块配置。

步骤6. Threat Grid现在显示在Modules页面的配置下,如图所示。

(TG可从透视菜单和案例簿中获得,以改进威胁调查)。

threat Response	Investigate Snapshots Incidents Beta Intelligence Modules						
Settings > Modules							
Settings							
Your Account	Tg Threat Grid						
Devices							
API Clients	Threat Grid combines advanced sandboxing with threat intelligence into one unified						
✓ Modules	solution to protect organizations from malware.						
Available Modules	Edit Learn More						
Users							

Threat Grid控制台 — 授权Threat Grid访问威胁响应

步骤1.使用管理员<u>凭据</u>登录Threat Grid。

步骤2.导航至"我的帐户"部分,如图所示。

Q	admin ~
📮 Generate API Key 🔿	My Account
	► Logout

步骤3.导航至"连**接"**部分,然**后选择**连接威胁响应选项,如图所示。

Connect Cisco Security Connect Threat Response

第4步。选择Authorize选项以允许Threat Grid访问思科威胁响应,如图所示。

Authorize Threat Grid to Access Threat Response

Authorization will allow Threat Grid to access Threat Response threat intelligence and enrichment capabilities.

If you've never accessed Threat Response, simply click the Authorize button and log in to Threat Response using your Threat Grid or AMP for Endpoints credentials.

步骤5.选择Authorize Threat Grid选项以授予应用程序访问权限,如图所示。

Grant Application Access

The application **Threat Grid** (panacea.threatgrid.com) would like access to your Cisco Threat Response account.

Specifically, Threat Grid is requesting the following:

- · casebook: access and modify your casebooks
- enrich: query your configured modules for threat intelligence (enrich:read)
- · global-intel: query AMP Global Intelligence
- inspect: extract observables and data from text (inspect:read)
- integration: manage your integration modules configuration (integration:read)
- private-intel: access Private Intelligence
- profile
- registry (registry/user/ribbon)
- · response: list and execute response actions using configured modules
- telemetry (telemetry:write)
- users (users:read)

Authorize Threat Grid

Deny

步骤6. Access Authorized(访问授权)消息显示为验证Threat Grid是否有权访问Threat Response威胁情报和浓缩功能,如图所示。

Access Authorized

Threat Grid can now access Threat Response threat intelligence and enrichment capabilities.

Increase and improve the threat intelligence that Threat Response provides by configuring modules such as AMP for Endpoints, Umbrella, and Virus Total. 为了验证CTR和TG集成,可以在CTR控制台上执行**调查**,当显示所有**调查**详细信息时,您可以看到 Threat Grid选项,如图所示。

Investigation 1 of 1 enrichments	s complete 🧖	-
Investigate Clear Res	set What can I search for?	,t
Relations Graph - Filters: Show A	II, Expanded 🗸 🔸 Showing 8 nodes	×* ···
Malicious SHA-256 Hash	ad	
	Malicious SHA-256	
	Copy to Clipboard	
	Create Judgement	

您可以选择浏览或搜索Threat Grid选项,并重定向到Threat Grid门户以收集有关Threat Grid知识库中的文件/散列/IP/域/URL的其他情报,如图所示。
